

Climate Change Meeting

Just to confirm, the Climate Change Meeting planned for 7.00p.m. on Thursday 26th March has been cancelled.

Earth Hour

The event planned between 20.30 and 21.30 on Saturday 28th March at the Church to mark Earth Hour has also been cancelled.

This year, Earth Hour is taking time to reflect on the effects of Climate Change on wildlife, but also its far reaching effects on humans throughout the world.

We urge as many as possible to join with us from their homes and switch off all the lights and use candles or tea lights in jars for the appointed hour.

Visit www.earthhour.org and click on "Take Part" where you will find a host of ideas to help make this time more meaningful.

We commend to you the two videos on the website from David Attenburgh [Learn More about the issues (and solutions)] and Greta Thunberg [Share This Video]. You can listen to them both in around 12 minutes.

If you feel like singing try the Climate Change Song:-<https://www.youtube.com/watch?v=CfU3fK0RG5k>

Perhaps you can read Genesis Chapter 1 verses 14 to 31. The Message version if you have it is particularly descriptive.

The current weather forecast is for a calm, clear night so perhaps you can go out to the garden photograph the stars in the sky and contemplate how amazing God's Creation is!

Maybe a short time of silent reflection on the Climate Emergency and the devastating effects of tsunamis, hurricanes, floods, rising sea levels, droughts and fires on humans and wildlife around the world. Consider what we as families and individuals can do in any small way to help.

Think about ending with a prayer open or silent for all of the countries suffering and trying to recover from the effects of Climate Change. Many of the poorer countries and people contribute very little to Global Warming but bear the brunt of the destructive effects.

Pray for an end to coronavirus throughout the world and for researchers and scientists to find a cure for the Covid-19 Virus.

Global Warming will remain a major problem for the World long after most of us have forgotten about this pandemic.

Let's do this! Separated physically for now but together in spirit and thought!

Stay Safe.

Frank Dick
